

Important Update for MiTek® Wrightsoft® Users

Perpetual License Sales Ending March 1, 2024

As Wrightsoft continues to evolve, we're making a pivotal shift in our licensing model. Effective March 1, 2024, we will no longer offer perpetual licenses for purchase. While existing perpetual licenses will remain functional, they will no longer receive updates or technical support after their current WSS (Software and Support) subscription expires.

Moving Forward with Subscriptions

To ensure you have access to the latest software innovations and expert support, we strongly encourage you to transition to one of our flexible subscription plans before your WSS expiration. Subscriptions offer numerous advantages, including:

- Always-up-to-date software: Stay ahead of the curve with the newest features and functionality.
- Ongoing technical support: Receive prompt assistance from our knowledgeable team whenever you need it.
- Predictable costs: Manage your expenses effectively with fixed annual payments.
- Scalability: Easily add or remove users as your business needs change.

Adding Users to Existing Perpetual Licenses

If you need to add a user to your existing perpetual license before March 1, 2024, please contact us to discuss your options.

Embrace the Future of HVAC Software

Secure your access to cutting-edge tools and reliable support with a Wrightsoft subscription. Contact us today to explore the subscription plan that best suits your business needs.

Contact Us

We're here to help you navigate this transition smoothly. Reach out to our team today to learn more about subscriptions and how they can benefit your HVAC business. Call 1-800-225-8697 and select option 1 for Sales, 2 for Technical Support, or email us at sales.wrightsoft@mii.com.
